Lean Your Production

Machining, automating, measuring ... lean & smart

Save Energy.
More Output.
Less costs.

ROI calculation

Overview A5

04/2026 | EN

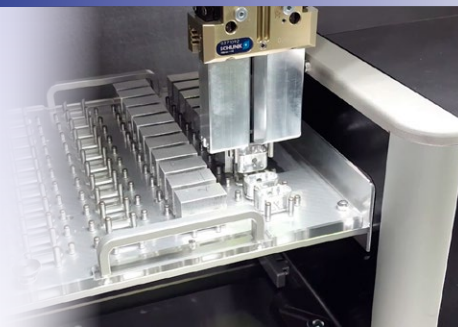

Upgrade for your standard machine.
Investment calculation. Highest productivity.
Benchmark. All from a single source.

LEHMANN®

Series 500 PGD

- Serial production of classical work pieces
  → Positioning, simultaneous machining, multifunctional
- Many workpieces individually clamped and machined on smallest space
- Turns standard VMC's into a highly productive machining cell thanks to ultra-short cycle times
- Higher speeds – up to 210 rpm

Series 900 DD

- Serial production of demanding workpieces
  → complete machining Mill-Turn, gear skiving, fast & safe
- Wide range of automatic workpiece clamping with integrated safety
- Turns standard VBZ into a unique production system in the smallest of spaces, often at half the price
- Higher speeds – up to max. 3,300 rpm

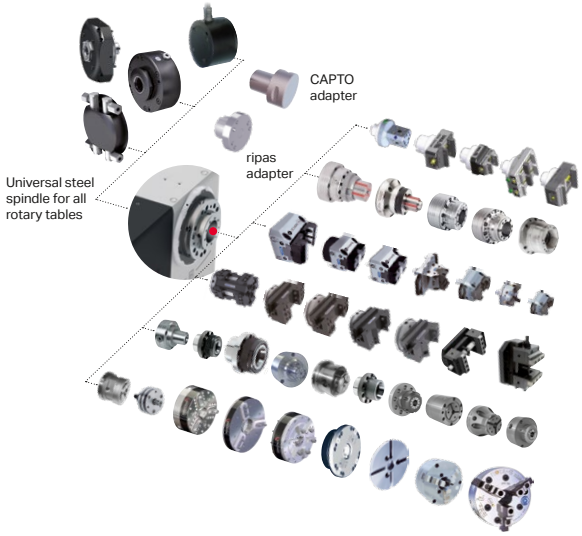

Spindle accessories, rear

- Rotary unions **up to 250 bar & 12 floods**
- Hydraulic clamping cylinder **23 kN at 120 bar**
- Pneumatic clamping cylinder **11 kN at 10 bar**
- Angular position measuring systems **as precise as ± 1 arcsec**

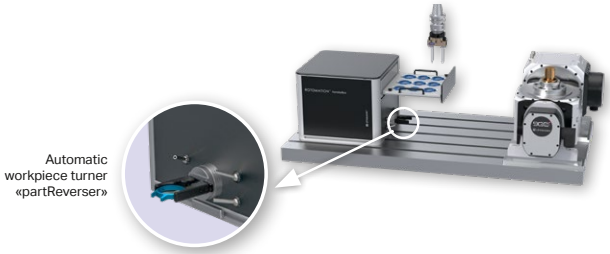

Spindle accessories, front

ROTOMATION

- Programming with machine CNC
- Unnecessary: door automation, automation interface, CE conformity, additional floor space, barrier
- Invest cheaply, produce unmanned, produce bravely

Metrology – The «DLL» rotary tables, heavyDuty & microLine

- No integration into machine controller required
- Fully controlled by your existing software
- Perfect for existing and new systems
- In no time ready to use
- Easy to operate, stand alone or automated
- For CMMs and other process optimization equipment to produce high quality parts
- Measure as produced, same workpiece holder as in the machine tool
